WASHINGTON, D. C.

Press Release

August 28, 1947

On July 15th, 1947, a Ministerial Committee presided by Mr. Gheorghiu-Dej, Minister of Industry and Commerce, has been created to take steps towards the economic rehabilitation and the stabilization of the currency.

Several preparatory measures were taken to fight inflation, to collect unpaid taxes, to drastically reduce the number of government employees and the Government's expenses, to reinforce the control of transactions in foreign currency, and so forth.

On August 15th, exactly a month later, these preparatory measures having led to good results, the Romanian Parliament passed a law on the stabilization of the currency, which was immediately implemented. Here are the main provisions of this law:

All bank notes issued by the National Bank of Romania which had circulated till August 15th; all coins issued by the Ministry of Finance; all negotiable notes and treasury bonds; bonds for army appropriations; tax bonds issued under the law on government arrears, etc., have been withdrawn from circulation.

Old bank notes have been replaced by new bank notes of 100, 500 and 1000 lei, issued by the National Bank of Romania. To replace old coins, the Ministry of Finance has authorized to issue coins of $\frac{1}{2}$, 1, 2 and 5 lei, and bank notes of 20 lei, not to exceed ten per cent of the amount emitted by the National Bank of Romania.

The rate of exchange is 20,000 old lei for one stabilized leu. The exchange took place between August 15th and August 20th.

Regulations Concerning the Exchange

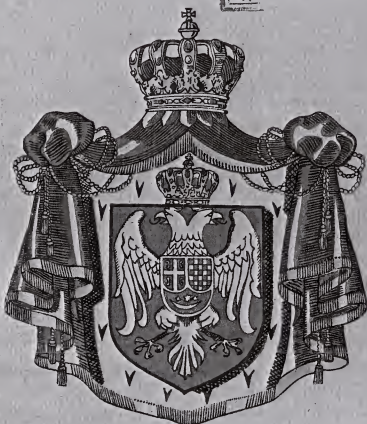

Active and retired employees of the government and private business were allowed to exchange three million old lei. Farmers could exchange, for themselves and their families, five million old lei. Disabled persons, war widows and orphans were authorized to exchange three million lei. Persons with no avowed profession had the right to exchange a million and a half old lei. Government departments, county and district authorities, government managed enterprises having an autonomous status, such as Postoffices, Railroads, Social Insurance, etc, were permitted to exchange all amounts of old lei in their possession, pending verification of their books. Corporations, as well as non-profit organizations, were permitted to exchange, for their current expenses, an amount equal to their total payroll in June, 1947. The amounts exchanged will serve as working capital and cannot be invested. Allied troops on Romanian territory were allotted an amount equal to their monthly allotment in old lei. Foreign diplomatic missions were authorized to exchange amounts equal to those which they had exchanged in the preceding month.
